

Flatten linked list

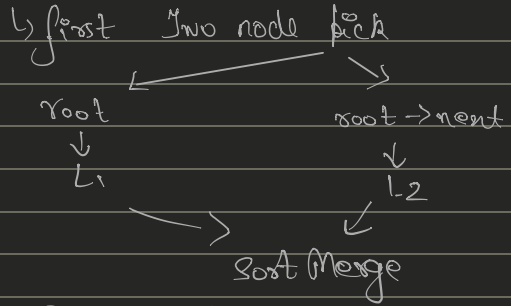

→ Two - 2 kase list Merge krdo

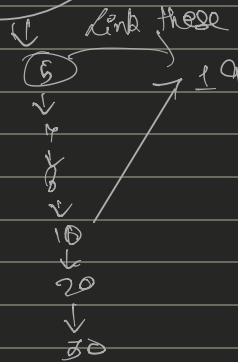

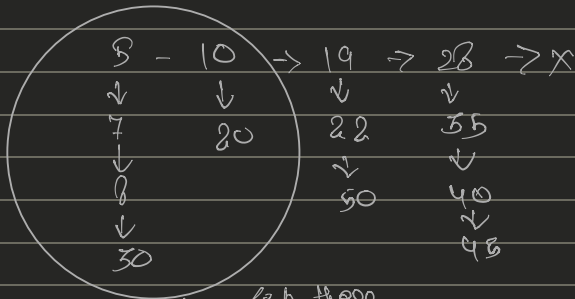

Algo \rightarrow
 Main LL

Main LL

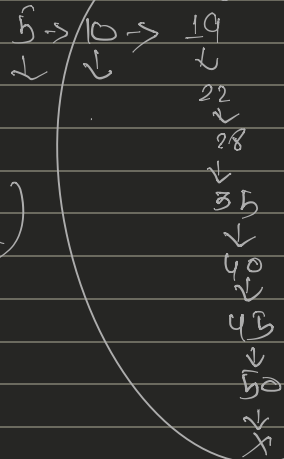

\rightarrow we will merge Recursively

\rightarrow But if we merge from Last 3 nodes

Merge them

merge (5, 10) \rightarrow (10, 19) \rightarrow (19, 28) \rightarrow (28, 0)

(5, 10) \leftarrow (10, 19) \leftarrow (19, 28) \leftarrow (28, 0)
